This exercise is designed to help clarify possible priorities for Calvary's future mission and ministries. While recognizing that every mission and ministry has value, not all things can have equal attention and focus at the same time. This exercise asks you to rank the church's primary areas of ministry, activity and mission according to the amount of focus and attention you believe they should receive during the next 3-5 years.

Please assign each item a number from 1-12 according to the following scale:

1 = should have the GREATEST focus and attention during the next 3-5 years

13 = should have the LEAST focus and attention during the next 3-5 years.
